EDUCATION

Lovely Professional University, *Bachelor of Technology in Computer Science and Engineering*
2022 – 2026 | Phagwara, India

TECHNICAL SKILLS

| | |
|---|--------------------|
| Data Structures and Algorithms | Operating System |
| Database Management System | Computer Networks |
| Languages: C++, python, Java, HTML, CSS | Tools: Git, Github |

PROJECTS

Vision Transformer ⓘ Jul 2024 – Oct 2024

- Implemented Vision Transformer for image classification with high accuracy, addressing data and computational limitations.
- Deployed model in resource-constrained environments with optimized performance.
- Skills Learnt : Python & TensorFlow, Image Classification, Model Optimization

Disaster Management System ⓘ Feb 2024 – Sep 2024

- Real time application to provide aid to the user at the time of disasters by maintaining records of supply-demand, resources distribution and notifications.
- Skills Learnt: HTML, CSS, javascript

Google Landmark Detection System ⓘ Jan 2024 – Jan 2024

- Implemented machine learning to identify famous places in images, used in Google products like Maps to help users explore the world.
- Skills Learnt: python and various libraries.

PROFESSIONAL EXPERIENCE

Training Program in Artificial Intelligence, 2022 – present
Coincent Organisation
Got upskilled in the domain of Artificial Intelligence using advanced python building real-life industry oriented projects.

Machine Learning Internship, *CodSoft Organisation* Aug 2024 – Sep 2024
Gained hands on experience in implementing different machine learning algorithms, optimising model performance.

STRENGTHS

Leadership

Time Management

ACHIEVEMENTS

Silver Badge, *Streak over 100 days - CodeChef*

100+ Questions,, *solved over Leetcode*

Institute Level, *top 20's - Smart India Hackathon 2024*

National Level, *Abacus Competition - "Champions of Champion" award in 2016*
