Modern School, Faridabad, Harayana
Scored 90 % aggregate in CBSE boards with subjects- physics, chemistry, Biology, Mathematics

About Me

Currently pursuing BTech Computer science from Lovely Professional University, Jalandhar, Punjab. I am a dedicated and a goal-oriented person who is always ready to explore different things out of my curiosity. I am good at un-learning and re-learning things which adds a bonus to my evergrowing dynamic profession.

|| Looking Forward to open-ended opportunities ||

Work Experience

Projects

• Tesla Website

I have made a clone of Tesla Website using basic knowledge of html and css.

It is being uploaded live on my github account also.

• Online Food Delivery system

I have also worked on a project of an online Restaurant webpage which offered all items including veg and non-veg. We had applied knowledge of html, CSS and Javascript which made the website responsive on mobile and laptop as well.

• Contact application Program

I have also contributed in a team project about contacts application program wherein users can access contact numbers, email and location entering person's name. We have applied knowledge of Python and its various operations and functions to make the program run in an efficient way.

Certifications

- Certified in 'basics of python' from Great learning Platform.
- Certified in web languages- html, css, and javascript from great learning online platform.
- Certification on Artificial Intelligence from Coincent platform in collaboration with Microsoft.

Extra-curricular and co-curricular activities

- Participated in National Level Badminton Competition.
- Awarded with 'Champion of Champions' title in National Level Abacus Competition.
- Attended Python Bootcamp 2 times.
